Certification of CPNI Filing January 7, 2008

Mountainland Communications, LLC

Mountainland Communications, LLC, hereby submits that its procedures regarding its customers' Customer Proprietary Network Information ("CPNI") are in compliance with Section 222 of the Communications Act of 1934, as amended (47 U.S.C. 222) and 47 CFR §§64.2001-64.2009.

Mountainland uses its customers' CPNI in compliance with the Commission's rules in 47 CFR §§64.2001-64.2009. It has provided proper, individual notice to each of its customers and, dependent on use, given its customers the required regulatory time period to either allow usage of CPNI or disallow CPNI usage. Further, on all in-bound calls, customers are given notice that their CPNI may be used and given the opportunity to allow or disallow CPNI usage for the duration of that call.

Mountainland's employees, including marketing and sales personnel and customer service representatives, have been educated about CPNI, federal regulations and Mountainland's statutory responsibility to its customers. Any unauthorized use, sale, or otherwise disclosure of CPNI by any employee would subject the employee to disciplinary action up to and including immediate dismissal.

Employees may easily determine the CPNI status of individual customers prior to using CPNI. Mountainland maintains a written log regarding outbound usage of CPNI including a description of the marketing activity, which products and/or services were marketed and the specific CPNI used. All sales and marketing personnel obtain approval from his/her supervisor of any outbound usage of CPNI. Mountainland currently does not sell, rent or otherwise disclose customers' CPNI to non-affiliated entities.

In compliance with the Commission's rules, Mountainland does not use, disclose or permit access to customers' CPNI for the purposes of identifying customers placing calls to competing carriers.
